

EMBR Update

Below are corrections to the ElectroMechanical Bench Reference 2010, the annual buyers' guide supplement to the December 2009 issue of Electrical Apparatus. This will be the only update we will publish in 2010. Subsequent changes will appear in the 2011 EMBR.

MANUFACTURERS FINDER / PRODUCT INDEX

Bearden-Thompson Electric Co.

Update the listing on p. 34 with the Suite address:

4630 Frederick Drive, SW
Suite D
Atlanta, GA 30336

Crown Controls LLC.

Add this new listing to p. 38 and update the Product Index (beginning on p. 2) as indicated:

298 Hawkins St.
Derby, CT 06418
sales@softstartusa.com
www.softstartusa.com
513-360-4762
FAX 203-732-2818

dbowens@greenmotors.org
www.greenmotors.org

Provides green motor energy saving practices information and training for electric motor industry and electricians needing State of Idaho or Montana continuing education units; Improve motor system reliability and increase uptime; Establish a motor driven system plan; Implement "continuous energy improvement"; Obtain motor rewinds without efficiency and reliability losses; Calculate and apply operation costs.

UPDATES AND NEW CATEGORIES FOR EMBR 2011

If you encounter errors as you use the directory, please notify us by email to embr@barks.com or by fax to (312) 321-1288.

In the fall, we send faxes and emails to all listed companies, outlining the information about them in EMBR 2011. Please review those communications carefully, so that your listing is accurate and complete.

Throughout the year, we occasionally add or refine product and category names. For example, in the Distributors section we recently added the new product category, "Brakes," and renamed "Gearings" to "Gearing and Gear Motors." In the Special Services Index, we added a new category, "Windpower Repair." If your company belongs in these or other new categories, you can update your listing, and view all category possibilities, at <http://embrbarks.com>. Access to your listing requires a username and password. If you need assistance, contact our EMBR editors, (312) 321-9440.
